PROFILE

I am an active linux user. I like to experience cloud technologies.

SKILLS

- Disk Management
- Container technologies
- Networking concepts and protocols
- Computer Literacy

EXPERIENCE

LINUX

- User account management
- Troubleshooting
- Authentication
- Disk Management
- working actively on linux

BASH

- whoami,cp,ls,mv,pwd,top,cd,mkdir,rm,rmdir,cat,touch,clear,sudo,chmod,history,kill,ssh,echo,ping,man, tail, head, adduser, wc, grep, userdel, passwd, port switching and more..

AWS

- Managing IAM: accounts, roles and policies
- Auditing the security groups and user access
- EC2 instance backup, Load balancing
- S3, SNS
- HTTPS Certificate Management: AWS Certificate Manager
- Configured and maintained DNS systems using Route53(AWS)

NETWORKING

DHCP, TCP, UDP, DNS, Firewall, NAS, SAN are terms I am familiar with.

DOCKER

Dockerfile, docker commands, docker volume create, docker container create, remove, port change etc

EDUCATION

COMPUTER TECHNOLOGY

Afyon Kocatepe University

CERTIFICATION

UDEMY - A'DAN Z'YE DOCKER

AWS CLOUD PRACTITIONER ESSENTIALS DAY
